```
1 ---
2 title: "r markdown"
3 author: "gurat"
4 date: "9/22/2020"
5 output: pdf_document
6 ---
7
8 ```{r setup, include=FALSE}
9 knitr::opts_chunk$set(echo = TRUE)
10 ```
11
12 ## R Markdown
13
14 This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS word documents.
15 For more details on using R Markdown see <http://rmarkdown.rstudio.com>.
16
17 When you click the "knit" button a document will be generated that includes both content as well as the output of
18 any embedded R code chunks within the document. You can embed an R code chunk like this:
19
20 ```{r cars}
21 summary(cars)
22 ```
23
24 ## Including Plots
25
26 you can also embed plots, for example:
27
28 ```{r pressure, echo=FALSE}
29 plot(pressure)
30 ```
31
32 Note that the "echo = FALSE" parameter was added to the code chunk to prevent printing of the R code that generated
```
